

CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET (“GEM”) OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been positioned as a market designed to accommodate companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the main board of the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.

MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW

During the nine months ended 31 December 2015, the Group's provision of valuation and advisory services maintained the growth trend and recorded an increase in revenue generated from the provision of valuation and advisory services of approximately 14.1% as compared with that for the nine months ended 31 December 2014. Such an achievement was mainly attributable to the new source of revenue generated from the newly acquired subsidiary in February 2015 and about 630 new projects secured by the Group during the nine months ended 31 December 2015. It was proved the Group's well established position in the valuation market of Hong Kong.

Professional teams are the most valuable asset of the Group. In order to attract new professionals, as well as retain existing high caliber individuals, the Group's employee benefit expenses increased by approximately 25.1% for the nine months ended 31 December 2015 as compared with that for the nine months ended 31 December 2014.

Apart from the provision of valuation and technical advisory services, the Group has further developed the provision of financing services and expanded its loan portfolio size. In view of the fluctuating property market in Hong Kong in the second half of the year of 2015, the Group tried to expand its loan portfolio, in terms of both types and size, in order to diversify the risk. During the nine months ended 31 December 2015, the Group newly granted secured loans to small and medium enterprises ("SME(s)"), which executed share charge documents in favour of the Group to charge on certain shares to the Group as security in connection with the loans granted. The Group generated more interest income from the provision of financing services during the nine months ended 31 December 2015 as compared with that for the nine months ended 31 December 2014.

On 1 June 2015, the Company submitted formal application to the Stock Exchange for the proposed transfer of the listing of the Shares from GEM to the main board of the Stock Exchange (the "Application"). The Application has lapsed in December 2015, and the Company intends to proceed with the Application.

FINANCIAL REVIEW

Revenue

The Group's revenue significantly increased to approximately HK\$78.8 million for the nine months ended 31 December 2015 from approximately HK\$46.7 million for the nine months ended 31 December 2014, representing an increase of approximately 68.7%. Such an increase was due to the fact that the services fee income generated from the Group's provision of valuation and advisory services increased by approximately 14.1% for the nine months ended 31 December 2015 as compared with that for the nine months ended 31 December 2014. There were about 630 new projects in relation to valuation and technical advisory services undertaken by the Group for the nine months ended 31 December 2015. Besides, in February 2015, the Group acquired Bonus Boost International Limited, which wholly owns B.I. Appraisals Limited. Such newly acquired operating subsidiary brought additional services fee income to the Group for the nine months ended 31 December 2015. The interest income generated from the provision of financial services also increased to HK\$31.5 million for the nine months ended 31 December 2015 from HK\$4.1 million for the nine months ended 31 December 2014, due to the loan portfolio of the Group being expanded during the nine months ended 31 December 2015 as compared with that for the nine months ended 31 December 2014.

Other income

The Group's other income increased by approximately 91.8% for the nine months ended 31 December 2015 as compared with that for the nine months ended 31 December 2014. Such an increase was mainly attributable to (i) the increase in reimbursable income from the Group's customers and (ii) the Group's unutilised proceeds from the rights issue being placed in commercial banks as time deposits for interests during the nine months ended 31 December 2015.

Employee benefit expenses

Employee benefit expenses mainly consisted of wages and salaries, pension costs and other benefits to the staff and the Directors. Employee benefit expenses increased to approximately HK\$23.5 million for the nine months ended 31 December 2015 from approximately HK\$18.8 million for the nine months ended 31 December 2014, representing an increase of approximately 25.0%, which was mainly attributable to the increase in the average number of full-time staff and average salary level of the staff for the nine months ended 31 December 2015 as compared with those for the nine months ended 31 December 2014.

Depreciation and amortisation

The Group recorded an increase of approximately 110.7% in depreciation and amortisation for the nine months ended 31 December 2015 as compared with that for the nine months ended 31 December 2014. Such an increase was mainly because of the amortisation of intangible assets recorded for the nine months ended 31 December 2015, which resulted from the acquisition of Bonus Boost International Limited and B.I. Appraisals Limited in February 2015.

Other expenses

Other expenses significantly increased to approximately HK\$26.4 million for the nine months ended 31 December 2015 from approximately HK\$15.1 million for the nine months ended 31 December 2014, representing an increase of approximately 74.8%. The increase was mainly attributable to (i) the increase in entertainment expenses during the nine months ended 31 December 2015 as compared with those for the nine months ended 31 December 2014 which increased along with the growth of the Group's revenue, (ii) more referral fees incurred during the nine months ended 31 December 2015 as compared with those for the nine months ended 31 December 2014, and (iii) provision for impairment in respect of the Group's certain loans receivable during the nine months ended 31 December 2015.

Profit attributable to owners of the Company

Profit attributable to owners of the Company increased to approximately HK\$23.2 million for the nine months ended 31 December 2015 from approximately HK\$9.1 million for the nine months ended 31 December 2014, representing an increase of approximately 154.9%. The significant increases in the Group's income tax expense, provision for impairment in respect of the Group's certain loans receivable, referral fees and employee benefit expenses partially offset the significant increase in the Group's revenue for the nine months ended 31 December 2015.

REVIEW ON PROVISION OF FINANCIAL ASSISTANCE AND ADVANCE TO ENTITY

COMPARISON OF BUSINESS OBJECTIVES WITH ACTUAL BUSINESS PROGRESS

1. THE IPO

Subsequent to the Listing Date and up to 31 December 2015, the Group fully utilised all the net proceeds from the placing of the Shares on GEM in 2013 in accordance with the business strategies as set out in the prospectus of the Company dated 31 January 2013.

2. THE RIGHTS ISSUE

In December 2014, the Company raised fund of net proceeds of approximately HK\$280 million from its rights issue of 3,183,112,500 Shares (the “RI Proceeds”). The Group continues to look for suitable business opportunities to utilise the remaining portion of approximately HK\$70.0 million of the RI Proceeds which was intended to apply for the funding and further development of the existing and future businesses of the Group. As at 31 December 2015, such unutilised net proceeds were kept as cash at and placed as bank deposits with authorised banks in Hong Kong.

FUTURE PROSPECTS

Going forward, the Group will proactively explore new opportunities in expanding its existing valuation and technical advisory services. To further increase the market penetration of the Group, the Board targets to enhance the capability of the Group and expand the scope of services to be provided. Besides, the Group will continue to develop its provision of financing services by expanding the size and loan types of its loan portfolio to generate more interest income to the Group. Assuming all the Placing Shares being successfully placed, there will be additional fund of approximately HK\$20.5 million for the Group's further lending. The Directors consider that it would be in the interests of the Company and its shareholders to develop the Group's financing business.
