

## Highlights

### InnoESG Committee Prize 2021

ROMA received the **InnoESG Committee Prize 2021** at the 3rd ESG Recognitions Ceremony held on 25 June 2021. The Award is co-granted by SocietyNext Foundation, UNESCO Hong Kong Association Glocal Peace Centre and Rotary Action Group for Peace to encourage businesses to innovatively reform their core business through adapting or incorporating Sustainability/ESG aspects. We are honoured to receive this recognition and we will remain steadfast in our continuous commitment to sustainable development.

For details of the Award, please visit:  
[www.innoesgprize.org](http://www.innoesgprize.org)

ROMA is delighted to receive the trophy from Ms. Mitzi Leung, Co-Chairman of UNESCO HK Association GPC. ▲

### ROMA ✕ China Tang Mooncake Gift Box

This year, Roma collaborated with China Tang, a prestigious restaurant recognized by the Michelin Plate, to present a classic yet elegant mooncake gift box for our premium clients and all our colleagues. Each gift box includes 8 pieces of "Mini Crafted Egg Custard Mooncake". The vibrant, chinoiserie-inspired gift box is detailed with elegant motifs of flowers and birds with light coral and aquamarine blue as theme-colors, infused with traditional Chinese window grilles and "ruyi" knot pattern. We hope this gift box brings you health, happiness and a fabulous Mid-Autumn Festival!

### Installing LED lighting

Enhancing environmental sustainability has always been one of ROMA's corporate social responsibilities. ROMA has installed energy-saving LED fluorescent tubes and motion sensors at our office so as to enhance energy efficiency and promote sustainability. The LED lighting system can be integrated with digital dimming systems, allowing customization of light levels. It is eco-friendly, cost effective and improves employees' productivity and well-being. Installing LED lighting is a cost-effective way to embrace green operations and helps reducing carbon footprint.

ROMA is committed to adopting sustainable development and is devoted to upholding environmental protection and corporate social responsibility. We can reduce carbon footprint with LED lighting, creating positive impacts in areas such as public health, environmental well-being and climate change. On 9 August 2021, our colleagues attended a training to learn more about this sustainable approach.

ROMA's energy consumption is mainly composed of petrol consumption by vehicles and electricity consumption. The Group regularly monitors the usage of energy to avoid excess energy consumption. We have formulated a series of policies and measures to achieve electricity conservation and energy efficiency. To reaffirm our commitment to efficient energy use, the Group targeted to maintain or reduce both petrol and energy consumption intensity in the following year. We will continue to strive to provide a healthy work environment and promote environmental consciousness.

### Internal Training

ROMA recognizes the importance of continuous development of our talents. We have adopted the Employee Training Policy and offer training programs regularly to improve employees' job-related knowledge as well as to support their personal growth.

On 22 June 2021, an internal training was held for our new staff. Our trainings are provided at both department-level and group-level. Our professionals often receive training and seminars relevant to their job nature, covering topics such as accounting standard, valuation methodology, anti-money laundering ("AML"), counter-terrorist financing ("CTF"), agency and surveying, as well as sharing on financial market updates.

Apart from internal training, we encourage our employees to attend external training and certification exams by offering study and examination leaves as well as reimbursement of examination expenses. ROMA also provides professional membership sponsorship to encourage employees to attain job-related professional membership.

### ESG Seminar

We are glad to be invited by World Chinese Enterprising Youth Association (WCEYA) to be one of the guest speakers in the ESG Seminar on 22 July 2021.

During the seminar, Ms. Kukoc Lee, Assistant Manager (Risk Advisory) of ROMA shared her experience and insight on sustainability from the perspective of an ESG consultant and the younger generation. We look forward to future opportunities and collaborations to share our expertise in different areas.

Ms. Kukoc Lee exchanges ideas with Dr. Eric Lam, Director of WCEYA in the Panel Discussion.

## News and Activities

### ESG Eco-tour

On 3 Sep 2021, our ESG & Sustainability Reporting team joined the Eco-tour to the Jockey Club Museum of Climate Change at the Chinese University of Hong Kong (CUHK).

The tour aims to raise public awareness on environmental protection, conservation issues and promote sustainable development. Through visiting the ecological attractions and green facilities at CUHK, it helps to strengthen our colleagues' understanding of sustainable development and gain their support to ROMA's "Go Green" initiatives.
